Chapter-6

Suggestion:

TO THE MANUFACTURERS

The consumers suggest the manufactures to increase the quantity of the products. And also the enhance the packing of the product they manufacture. So the manufacture can look in to the suggestion and increase the quality and quantity with reasonable prices.

TO THE MARKETERS

Foreign Brands predominantly took their space in the market. There is a humongous growth in the market . The consumer prefer innovation and variety in usage level. Customers are ready to switch to another brand in case of non availabilty and experimentation. Limited availabilty is a boon for customers.

Chapter-7

Conclusion

The research concludes that the consumers are able to realize the need, awareness of the product ,and suitable information sources of the product. They are able to collect maximum information of the product through TV advertisement and make careful study on the products. In the purchase satisfaction in consumers of predominant brand image and quality is important. The royalty of the consumer purpose is very high, so that their strength and expectation are also maximized.

In this research the area of study is limited to Coimbatore district. In future the research can extend in other areas as well. By knowing these satisfaction levels the manufacturers and marketers can make necessary changes and satisfy their needs.
